

Didarul Alam Rahat

Full-Stack Laravel & Flutter Developer | 7+ Years Experience | Remote-Ready

Bangladesh |  Open to Remote Roles | darahat42@gmail.com | <https://darahat.dev> | GitHub: github.com/Darahat | LinkedIn: linkedin.com/in/darahat

Professional Summary

Results-driven Full-Stack Developer with 7+ years of experience delivering scalable web and mobile applications using Laravel, Flutter, and Vue/Nuxt.js. Proven ability to manage distributed teams and collaborate effectively across Slack, Zoom, Trello, GitHub, and other digital platforms. Successfully developed apps with 10,000+ installs and ERP platforms serving thousands of users, while maintaining strong DevOps and CI/CD pipelines for seamless deployment.

Remote-Ready: Comfortable working across GMT+6 to GMT+0, with stable 100 Mbps internet, professional workstation, and demonstrated success in asynchronous collaboration. Seeking a remote full-stack or mobile development role to contribute innovative solutions and accelerate digital transformation worldwide.

Core Skills

- Languages & Frameworks: PHP (Laravel, CodeIgniter), JavaScript (Vue, Nuxt), Flutter (Dart), Solidity, Ether.js
- DevOps & Tools: Docker, GitHub Actions, AWS, Terraform, Grafana, Kubernetes, AlmaLinux, SSH, cPanel
- Databases: Oracle, MySQL, SQLite, Hive, ER modeling, complex SQL queries
- Other Strengths: RESTful API design, offline-first mobile apps, AI integration (Mistral API), Web3 (smart contracts)
- Soft Skills: Remote collaboration, problem-solving, proactive communication, cross-functional teamwork

Work Experience

Assistant Programmer (Remote-Collaboration Capable)

Bangladesh Agricultural University (BAU) | Jul 2019 – Present

- Built and deployed 10+ critical applications, including BAU eDiary (Flutter, 10,000+ installs, 4.8★ rating), student ERP systems, certificate automation, and IoT-based solutions.

- Architected REST APIs in Laravel serving 5,000+ students and staff, optimizing data flows.
- Led cross-department coordination via Slack, Zoom, and Trello, ensuring timely delivery of projects.
- Improved deployment speed by 30% using Dockerized testing and GitHub Actions CI/CD.
- Technologies: Flutter, Laravel, Vue.js, MySQL, Oracle, Docker, Tailwind CSS

Front-End Developer

Funush Private Limited | Feb 2019 – Jul 2019

- Designed and implemented responsive interfaces for CareerKi.com (PWA) with Vue.js.
- Collaborated with distributed teams in different time zones.
- Delivered UI/UX improvements that increased user engagement by 20%.
- Technologies: Vue.js, Vuex, PWA, MongoDB

Selected Projects

- StakeHive (DeFi Staking App) – Smart contracts (Solidity + Ether.js), Nuxt.js frontend. Live: <https://stakehive-defi-dapp.netlify.app>
- SensorLab (Flutter App) – Native sensor toolkit with offline-first capabilities. Google Play: <https://play.google.com/store/apps/details?id=com.darahat.sensorlab>
- BAU Website & ERP Backend – REST API architecture for academic ERP and CMS using Laravel. Live: <https://bau.edu.bd>, <https://erp.bau.edu.bd>
- MonsterBPO.com – Corporate website with Laravel, Tailwind CSS, MySQL backend. Live: <https://www.monsterbpo.com>

Education

- B.Sc. in Software Engineering – Daffodil International University (2013–2017)
- HSC – Shaheed Sayeed Nazrul Islam College (2010–2012)
- SSC – Mymensingh Zilla School (2010)

Remote Readiness & Setup

- Time Zone: GMT+6, flexible overlapping hours with US/EU teams
- Internet: 100 Mbps wired broadband + backup 4G hotspot
- Communication Tools: Slack, Zoom, Trello, Notion, GitHub, Google Workspace
- Hardware: Dedicated workstation with dual monitors, Docker-ready environment
